

James R. Gosz
Special Assistant to the Dean, CNR and to the Office of the Vice President for
Research and Economic Development;
Research Professor
College of Natural Resources
PO Box 441142
University of Idaho
Moscow, Idaho 83844-1142
(version January 2016)

Education

<u>Degrees</u>	<u>Discipline</u>	<u>Institution</u>	<u>Year</u>
B.S.	Forestry	Mich. Tech Univ.	1963
Ph.D.	Forest Sci.	Univ. of Idaho	1968

(major: Tree Physiology, minor: Soil Chemistry)

Postdoctoral Experience and Employment

<u>Institution</u>	<u>Rank</u>	<u>Year</u>
Dartmouth College	Research Associate	1968-69
Cornell University	Research Associate	1969-70
University of New Mexico	Assistant Professor	1970-74
University of New Mexico	Associate Professor	1974-79
University of New Mexico	Professor	1979-2006
University of New Mexico	Acting Chairman	1981
Nat'l Science Foundation	Director, Ecosystem Studies Prog.	1984-86
Sustainable Biosphere Initiative	Executive Director	1992
(I left the SBI Office in 1993 after getting it started to accept a position at the National Science Foundation)		
Nat'l Science Foundation	Director, Division of Environ. Biol.	1993-94
New Mexico EPSCoR Prog.	Director	2001-2006

University of New Mexico	Emeritus Professor	2006-present
University of Idaho	Research Professor	2006-present
Nat'l Science Foundation	Senior Program Director	2006-2008
University of Idaho	Assoc. Dean, Res. Prof., CNR	2008-2010
University of Idaho	Special Assist. Vice President for Research and Economic Development	2010-present

Professional Experience

1972-1978:	Founder Representative for the Institute of Ecology
1974:	Consultant, New Mexico Environmental Institute, Las Cruces, NM
1975-1976:	Chairman, New Initiatives and Programs Comm., The Institute of Ecology
1975-1978:	New Mexico Governor's Comm. on Technical Excellence (Subcomm. on Radioactive Waste Disposal)
1975-1977:	New Mexico Governor's Comm. on Environmental Aspects of Economic Progress -- Governor's Council of Economic Advisors
1976-1978:	Research Consultant, R & D Assoc., Marina del Rey, CA.
1977-1978:	Advisory Board, New Mexico Energy Institute, Las Cruces, NM
1977-1978:	Executive Committee, New Mexico Energy Institute, Las Cruces, NM
1980-1984:	Research Advisory Study Committee, Eisenhower Consortium
1981-1982:	Ecological Society of America Study Committee
1980-1984:	Research consultant, Woodward-Clyde, San Francisco, CA
1980-1984:	Delegate, Eisenhower Consortium
1980-1981:	Appointment to New Mexico Governor's Committee on Technical Excellence (subcommittee on Radioactive Waste Disposal)
1980-1981:	Advisory Board, New Mexico Energy Institute, Las Cruces, NM
1980-1981:	Executive Committee, New Mexico Energy Institute, Las Cruces, NM
1983-present:	Editorial Board of Biogeochemistry
1981-1983:	Organizing Committee, 6th Int. Environmental Biogeochemistry Symposium
1981-1984:	National Science Foundation Panel - Ecosystem Studies Program
1981-1982:	National Science Foundation Panel - LTER Program
1981-1992:	Scientific Advisor, Coweeta LTER Program
1981-1992:	Scientific Advisor, Konza Prairie LTER Program
1981-1984:	Scientific Advisor, Jornada Desert LTER Program
1983-1984:	Scientific Advisor, Forest Research Program, U.C. Berkeley
1984-1986:	Program Director, Ecosystem Studies Program, NSF

1985: Program Reviewer for DOE, Office of CO2 Research Division
1985: Panel Reviewer for NASA, Earth Science and Applications Division
1985: Project Review for EPA, Acid Precipitation Direct/Delayed Project
1986-1992: Scientific Advisor, H.J. Andrews LTER Program
1987-1989: Public Affairs Chairman, Association of Ecosystem Research Centers
1987: Program Reviewer for DOE, Nat. Experimental Reserach Park Program
1987-1990: National Science Foundation Panel - Facility Centers Program
1988: Panel Reviewer for NASA, EOS SAR Instrument Program
1988: Program Reviewer for EPA, Ecological Effects of Climate Change
1988-1992: Chairman of Technology Committee for LTER Program of NSF
1988: Grantsmanship Program, New Zealand Forest Research Institute
1988: UNEP/SCOPE Workshop on: "Management of Ecotones", Paris France
1989: Faculty Scholars Award - University of New Mexico
1989-1993: Steering Comm., Water Resources Management Curriculum
1989-1991: Secretary - Association of Ecosystem Research Centers
1989-1990: Executive Committee, Long Term Ecological Research Prog. (alternate)
1990-1992: Chairman - Rio Grande Basin Consortium (multiagency program)
1990: Panel Reviewer for National Park Service, Global Change Program
1990: IGBP Workshop on "Plant-Water Interactions in Large-Scale Hydrological Modelling", in conjunction with International Hydrological Programme (IHP), International Association of Hydrological Sciences (IAHS), and Swedish National Committee for IGBP, Vadstena, Sweden
1991: UNEP/SCOPE Workshop on: "Ecotones in a Changing Environment", Kellogg Biological Station, U.S.
1990-1992: National Academy of Sciences, Co-chairman for Comm. on Joint Research on Global Change with Chinese Acad. of Sciences
1991-1993: National Academy of Sciences, Chairman for Comm. to evaluate the EMAP program of EPA
1991-1992: Executive Board - Long Term Ecological Research Program
1991: Delegation Leader - U.S. delegation to review the Chinese Ecological Research Network (CERN)
1991: U.S. - China Coordinating Committee for U.S. LTER and CERN Network Interaction
1991: UNEP/SCOPE Workshop on: "Management of Ecotones", Moscow, Russia
1991: Public Affairs Committee; Association of Ecosystem Research Centers
1992: Executive Director for the Sustainable Biosphere Initiative Project, Ecological Society of America, Wash. D.C.

1992-2005: International Advisory Committee member for the development of the Chinese Ecological Research Network (CERN)

1992: NASA Landsat Science Working Group

1993-1994: Division Director, Division of Environmental Biology, National Science Foundation, Washington, D.C.

1993-1994: Executive Secretary, Subcommittee on Environmental Biology, FCCSET Committee on Life Sciences and Health

1993-1994: NSF representative to Biodiversity Task Group, Global Environmental Affairs, Presidential Review Directive NSC-12

1993-1994: NSF representative to Forests Task Group, Global Environmental Affairs, Presidential Review Directive NSC-12

1993-1994: Committee on Water Resources, FCCSET

1993-1994: National Science Foundation Partnerships Task Force

1994: Representative to the NSF Environment Strategic Program

1994: NSF representative to the Subcommittee on Biodiversity and Ecosystem Dynamics, Committee on Environment and Natural Resources (CENR)

1994: Chairman, Writing Group for the Strategy Document for the Subcommittee on Biodiversity and Ecosystem Dynamics (CENR)

1994: Chairman, Writing Group for the Section on Biological Impacts & Adaptation, Subcommittee on Biodiversity and Ecosystem Dynamics (CENR)

1994: NSF representative to the Office of Science, Technology and Policy Committee on the Mississippi Flood Evaluation

1994: NSF representative to the Office of Science, Technology and Policy Committee on the Presidio

1994: NSF representative to the Committee for the National Center for Biodiversity Information

1994: NSF Coordinator for the Terrestrial Ecology Initiative for the U.S. Global Change Research Program

1994: Co-chair of the Global Change Process Working Group

1994: NSF Point of Contact for the Subcommittee on Technology and Engineering Research (CENR)

1994: NSF representative for the Interagency Ecosystem Management Committee

1994: Committee member, NSF High Performance Computing and Communication Coordination Committee

1994-2005: Committee member for the Scientific Advisory Committee for the Chinese Ecosystem Research Network

1995-1996: Chairman, Scientific Advisory Committee for the Chinese Ecosystem Research Network

1995-2006: Chairman, U.S. Long Term Ecological Research Network

1995-1997: Director, U.S. Long Term Ecological Research Network Office

1995-2003: Chairman, International Long Term Ecological Research Network

1995: Team Leader, Czech Republic Site Visit for the establishment of a LTER Network

1995-present:	Science Advisory Board, Crane Research Facility, Washington
1995:	Team Leader, Spain and Portugal Site Visits for the establishment of LTER Networks
1997:	National Science Foundation Panel: Urban LTER sites
1997:	Chairman, Office of Science, Technology and Policy (Executive Office of the President) Committee for the Development of Intensive Research Site Criteria for the National Monitoring and Research Network.
1998:	National Science Foundation Panel: GLOBE Program
1998-2001	Advisory Board for the National Science Foundation Directorate for Social, Behavioral and Economic Sciences
1998-2001	Chairman, Steering Committee for the Global Terrestrial Observing System
1999-2006	Advisory Board for the Smithsonian Environmental Research Center
1999-2000	Scientific Advisory Committee for Congresswoman Heather Wilson
1999-2000	ESPCoR coordinator for development of the EPSCoR program in New Mexico
1999-2006	Scientific Panel for the Joint Infrastructure Fund for the U.K.
1999-2006	Special Assistant to the Vice Provost for Research, UNM
2000-2006	Multidisciplinary Assessment Committee of the Canada Foundation for Innovation
2001	NASA Panel for Terrestrial Carbon for the Earth Observing System Research Program
2001-2005	Science Committee, CUAHSI (Consortium of Universities for the Advancement of Hydrologic Science, Incorporated)
2001-2006	Science Committee, Bioresearch Consortium (Sandia National Laboratory-UNM-New Mexico state agency Consortium)
2003	Panel Reviewer for NASA, Earth Science and Applications Division
2003-2008	Science Advisory Committee. National Park Service Network
2003-2004	EPSCoR Coalition Member
2004-2006	EPSCoR Foundation Board (elected)
2004-present	Editorial Board for Sustainability: Science, Practice, & Policy (new e-journal: http://ejournal.nbio.org/)
2004-2006	Consortium Building Committee of the NEON Planning Grant Effort. PIs are Bruce Hayden, and Bill Michener
2004-2006	Advisory Council, USFS Forest & Range Expt. Station, Albuquerque Office
2005-present	Presidential Appointment to the Board of Trustees for the Valles Caldera National Preserve.
2005-2006	Member: Governor's New Mexico Climate Change Advisory Group
2005-2006	Member: Albuquerque Mayor Chavez's Climate Change Task Force

2006-2008	Interagency EPSCoR Coordinating Committee, Exec. Sec.
2009-2015	NEON Board of Directors (member elected)
2014-present	Steering Committee: AGEP-Pacific Northwest Collaborative Opportunities for Success in Mentoring of Students, Univ. of Idaho
2015-present	Faculty Affiliate: Center for Resilient Communities (CRC), Univ. of Idaho

University Committee Activities at UNM and Univ. of Idaho

Large Project Planning Committee (upon request): This committee reviews and guides the development of major proposals (multi-million dollar efforts) from the University to various funding agencies. The committee works with appropriate faculty to develop proposals and performs “Red Team” reviews of proposals before submission.

Technical Reports (as primary author)

Hydrologic-nutrient cycle interactions in undisturbed and man-manipulated ecosystems. 1972. Water Resources Research Institute.

Stream chemistry as a tool in evaluating ski area development effects on a spruce-fir watershed. 1973. U.S.D.A.

Hydrologic-nutrient cycle interactions in undisturbed man-manipulated ecosystems. 1973. Water Resources Research Institute.

Effects of road surfacing and salting on roadside vegetation in New Mexico mountain areas. 1973. U.S.D.A.

Stream organics to evaluate land management. 1974. Water Resources Research Institute.

An evaluation of New Mexico humate deposits for restoration of strip mining sites. 1974. New Mexico Energy Resources Board (with L. Potter, L. Barton).

Effects of soil amendments on vegetation stressed by road salt. 1975. U.S.D.A.

Effects of ski area use on biological and heavy metal aspects of water quality. 1975. U.S.D.A.

An evaluation of New Mexico humate deposits for restoratgion of strip mining sites. 1975. New Mexico Energy Resources Board (with L. Potter, L. Barton).

The impact of energy development on fist and wildlife in the Four-Corners region. 1975. U.S. Fish and Wildlife Service (with A. Parker, A. Kneese).

Terrestrial contribution of nitrogen to stream water in manated and undistubed forested watersheds. 1976. Water Resources Research Institute.

An evaluation of procedures for improved water quality in ski areas. 1976. U.S.D.A.

Effects of timber stand maturity and management on some stream organic compounds. 1977. U.S.D.A. (with R. Cates).

Influence of road salting on the nutrient and heavy metal levels in stream water. 1977. Water Resources Research Institute.

Ecological Considerations. Chapter 5. In: Genetically engineered organisms in the environment. 1987. Biological Applications Program, Office of Technology Assessment, Congress of the United States.

LTER Technology Report for the LTER Strategic Plan. 1989. National Science Foundation.

Integrating the Nation's Environmental Monitoring and Research Programs: An Exercise Using Nitrogen Enrichment to Demonstrate the Value of Index Sites in a National Network. 1999. J.R. Gosz and P. Murdoch. A Report Prepared for the Office of Science and Technology Policy (OSTP).

Sponsored Research

1972: Mount Taylor Baseline Study - Soils and Water Quality, New Mexico Environmental Institute. \$22,000.

1973: Hydrologic-nutrient cycle interactions in undisturbed and man-manipulated ecosystems (watersheds). Water Resources Research Institute. Grant 3109-150. \$10,980.

1973: Stream chemistry as a tool in evaluating ski area development effects on a spruce-fir watershed. U.S.D.A. Cooperative Agreement 16-293-CA. \$5,000.

- 1974: Baseline Study of the Cerillos area of New Mexico. Occidental Mineral Corporation. \$13,077.
- 1974: Quantitative Evaluation of Disturbances associated with ski area development. U.S.D.A. Cooperative Agreement 16-443-CA. \$5,000.
- 1974: Effects of road surfacing and salting on roadside vegetation in New Mexico mountain areas. U.S.D.A. Cooperative Agreement 16-USC-581. \$5,000.
- 1974: Feral Burro Impact and Alligator Bark Juniper - Bandelier National Monument, National Park Service. \$9,985.
- 1974: Stream organics to evaluate land management. Water Resources Research Institute Grant 3109-146. \$11,740.
- 1974-76: Terrestrial contribution of nitrogen to stream water in managed and undisturbed forested watersheds. Water Resources Research Institute Grant 3109-156. \$39,306.
- 1975: Effects of soil amendments on vegetation stressed by road salt. U.S.D.A. Cooperative agreement 16-524-CA. \$6,000.
- 1975: Effects of ski area use on biological and heavy metal aspects of water quality. U.S.D.A. Cooperative Agreement 16-520-CA. \$12,000.
- 1974-75: An evaluation of New Mexico Humage deposits for restoration of strip mining sites. New Mexico Energy Resources Board. \$113,260.
- 1975-78: The fish and wildlife impact of energy development in the Four-Corners Region. U.S. Fish and Wildlife Service. \$197,599.
- 1976: An evaluation of procedures for improved water quality in ski areas. U.S.D.A. Cooperative Agreement 16-588-GR. \$12,000.
- 1976: Influence of road salting on the nutrient and heavy metal levels in stream water. New Mexico Water Resources Research Institute. \$8,335.
- 1976: Effects of timber stand maturity and management on some stream organic compounds. U.S.D.A. Cooperative Agreement. \$6,375.
- 1976-78: An experimental and comparative investigation into the factors controlling nutrient losses from disturbed ecosystems. NSF. \$64,924.
- 1976: Longitudinal recovery of a stream affected by a ski area development. U.S.D.A. Cooperative Agreement. \$12,000.

- 1977: Nutrient changes in soil following fire. U.S.D.A. Cooperative Agreement. \$15,000.
- 1977: Nutrient and heavy metal transport capability of sediments in the Southwest. U.S.D.A. Cooperative Agreement. \$30,000.
- 1978-80: An experimental and comparative investigation into the factors controlling nutrient losses from disturbed ecosystems. NSF. \$117,643. (co-P.I.)
- 1978-79: Senior Research Fellowship, New Zealand National Research Advisory Council. "Factors influencing nutrient loss from managed and natural forests in New Zealand".
- 1980-81: An experimental and comparative investigation into the factors controlling nutrient losses from disturbed ecosystems. NSF. \$63,568. (co-P.I.)
- 1981-83. Evaluation of Sr isotopes for quantifying inputs. NSF. \$305,433.
- 1981-82: Impact of recreation on forest and stream water. USFS. (RM 81-159-GR) \$54,378.
1982. Prescribed fire effects on water soluble organics and nutrients. USFS. (RM 82-C2-233). \$30,000.
- 1983-84: Evaluation of Sr isotopes for quantifying organics and nutrients. NSF. \$98,453.
- 1983-84: Predoctoral Dissertation Grant (C.S. White). NSF. \$1,770.
- 1984-85: Prescribed fire effects on water soluble organics and nutrients. USFS. \$29,200.
- 1986-87: Role of plant secondary chemistry in ecosystem processes. NSF. \$604,989.
- 1987-88: Manipulation of nitrogen and water availability and effects on belowground production of plant secondary metabolites and ecological processes. NSF. \$88,200.
- 1987-89: Pattern Analysis of Landscapes. Martin Marietta (Oak Ridge National Lab). \$30,000.
- 1987-90: Long-path FTIR analysis of biosphere/atmosphere interactions. NSF. \$578,784.
- 1988: Quantification of evapotranspiration across scales and gradients. Los Alamos National Lab. \$30,140.

- 1988: REU Supplement to: FTIR analysis of biosphere/atmosphere interactions. NSF. \$8,000.
- 1988-94: Long-term ecological research on climatic and ecological gradients: Sevilleta National Wildlife Refuge. NSF. \$2,400,000.
- 1989: REU Supplement to: Long-Term Ecological Research on the Sevilleta. NSF. \$8,000.
- 1989: Development of an image acquisition and processing system for spatial analysis of vegetation. NSF. \$23,000. (co-P.I.)
- 1989: Supplement to: Long-Term Ecological Research on the Sevilleta - Data Management Equipment Acquisition. NSF. \$94,000.
- 1989: REU Supplement to: FTIR analysis of biosphere/atmosphere interactions. NSF. \$8,000.
- 1989: SGER Grant for: Three dimensional image processing for plant ecology. NSF. \$35,500.
- 1990: Development of an image acquisition and processing system for spatial analysis of vegetation. NSF. \$77,240. (co-P.I.)
- 1990: REU Supplement to: Long-Term Ecological Research on the Sevilleta. NSF. \$16,000.
- 1990: REU Supplement to: FTIR analysis of biosphere/atmosphere interactions. NSF. \$8,000.
- 1990-93: Long-path FTIR analyses of ecosystem processes. NSF. \$539,000.
- 1990: Development of a regional research center in New Mexico. NSF. \$140,000. (co-P.I.)
- 1990: Supplement to: Long-Term Ecological Research on the Sevilleta - GIS Equipment Acquisition. NSF. \$50,350.
- 1991: REU Site proposal for the Sevilleta National Wildlife Refuge Field Station. NSF. \$49,600.
- 1991: Sewage Sludge Application in Semiarid Grasslands: Effects on Vegetation and Water Quality. WRRI. \$28,106.
- 1991: REU Supplement to: FTIR analysis of biosphere/atmosphere interactions. NSF. \$8,000.

- 1991: REU Supplement to: Long Term Ecological Research on the Sevilleta. NSF. \$16,000.
- 1991: Analysis of relationships between lightning, precipitation, and runoff: a continuation proposal. WRRI. \$24,989.
- 1991: Supplement to: Long-Term Ecological Research on the Sevilleta - Equipment Acquisition. NSF. \$50,135.
- 1991: Sevilleta Field Station: Laboratory Equipment for Ecological Research. NSF. \$119,834. (co-P.I.)
- 1991: Supplement to: Development of an Image Acquisition and Processing System for Spatial Analysis of Vegetation. NSF. \$25,122. (co-P.I.)
- 1992: REU in Ecological Studies: Establishment of a REU Site with the Sevilleta LTER Program. NSF. \$151,800.
- 1992: Software for Collaboration in Ecological Science. NSF. \$162,147. (co-P.I.)
- 1992: Supplement to: Long-Term Ecological Research on the Sevilleta - Equipment Acquisition and REU support. NSF. \$74,955.
- 1992: Ecosystem Recovery Following Three Centuries of Livestock Grazing in Central New Mexico. NSF. \$25,245.
- 1992: DOD Legacy Program Supplement to Sevilleta LTER: Grassland Biodiversity After 50 Years of Livestock Exclusion. DOD. \$50,000. (co-P.I.)
- 1992: Sewage Sludge Application in Semi Arid Grasslands: Effects on Soils, Vegetation and Water Quality. WRRI. \$24,375.
- 1992: The Sevilleta Field Station: Construction of a Desert-Plant Lath House and a Shop/Storage Building. NSF. \$74,820. (co-P.I.)

My name was removed as P.I. or co-P.I. from all previous awards when I became the Division Director for the Division of Environmental Biology at NSF to avoid Conflict of Interest situations.

- 1995: Stimulating and facilitating collaborative Long Term Ecological Research: A proposal for continued support of the LTER and ILTER Networking. NSF. \$94,000 (subcontract from U. Washington).
- 1995: Supplement to the Sevilleta LTER award: Travel funds for an exchange of U.S., Portuguese and Spanish scientists to facilitate the development of

- LTET Networks in Portugal and Spain. NSF. \$22,000.
- 1996: Stimulating and facilitating collaborative Long Term Ecological Research: A proposal for continued support of the LTER and ILTER Networking. NSF. \$94,991 (subcontract from U. Washington).
- 1996: Supplement to the Sevilleta LTER award: Travel funds for interactions with S. Africa. NSF. \$5,400.
- 1996: Supplement to the Sevilleta LTER award: Travel funds for Polish scientists to attend the ILTER meeting in Panama. NSF. \$5,500.
- 1996: U.S. - Hungary grassland comparisons: Response of vegetation to environmental constraints and global climate change. NSF. \$156,076 (co-PI).
- 1997: REU Supplement to U.S. - Hungary grassland comparisons. NSF. \$8,000 (co-PI).
- 1997: Supplement to the Sevilleta LTER award: Travel funds for an exchange of Asian students with the LTER program and attendance at the Ecological Society of America meeting. NSF. \$14,500.
- 1997: Data and Information Management in the Ecological Sciences: Proposal for a Training Workshop. NSF. \$58,270. (co-P.I.).
- 1997: A Proposal for the Network Office of the U.S. Long Term Ecological Research Network from an Association of Institutions. NSF. \$5,590,000.
- 1997: Development of Criteria for the Intensive Research Sites in the National Monitoring and Research Network. OSTP (Executive Office of the President). \$10,000.
- 1999: Research Experiences for Undergraduates Site Program with the Sevilleta LTER: Ecosystem Productivity, Biodiversity, and Systematics. NSF. \$120,000
- 1999: Replacement and Consolidation of Research and Research Training Facilities of the Department of Biology, University of New Mexico (replacement PI for T. Yates). NSF. \$960,000.
- 1999: Improvement of the Museum of Southwestern Biology's Biological Materials Collections: A genetic Resource for the 21st Century (replacement PI for T. Yates). NSF.
- 1999: KDI: Knowledge, Networking of Biodiversity Information (replacement PI for T. Yates). NSF.

- 2000. Sevilleta Long Term Ecological Research Program: Climatic and environmental gradients in a Biome Transition Zone. \$1,400,000. NSF. (2 yrs).
- 2000. Planning Grant for the New Mexico EPSCoR Program. \$154,000. NSF.
- 2001. Supplement to the Sevilleta LTER Research Program. \$25,000. NSF
- 2002. Supplement to the EPSCoR Planning Grant. \$75,000. NSF.
- 2002. EPSCoR Research Infrastructure Grant. \$6,200,000. NSF. (3 yrs).
- 2002. Sevilleta Long Term Ecological Research Program: Climatic and environmental gradients in a Biome Transition Zone. \$2,800,000. NSF. (4 yrs).
- 2001. Undergraduate Mentorships in Environmental Biology: Undergraduate Career Enhancement and Training in Ecological Studies. (Co-PI). \$400,000. NSF (5 yrs).
- 2004. Preparing the LTER Network for collaborative science, education and synthesis: A planning proposal. \$985,000. NSF. (2 yrs).
- 2004. Research and Education Laboratory Building. \$4,567,902. Fish & Wildlife Service. (3 yrs).
- 2005. An additional \$2.1 million in the Senate Appropriations bill for the Research and Education Laboratory Building in 2006.
- 2004. Scientific Assessment of Vegetation and Hydrologic Conditions in our Watersheds and River Systems. \$224,000. State Legislature – NMDA. (1 yr).
- 2005. New Mexico EPSCoR RII (NM NEW) Proposal. \$6,750,000. NSF. 03/01/05 - 02/28/08.

My name was removed as PI of current awards and activities on a number of committees in Dec. 2005 when I become Senior Program Director at the National Science Foundation.

- 2008. A Study of the eco-social system of an amenity-driven, urbanizing environment in the Inland Empire. \$25,000. University of Idaho. 6/1/08 to present.
- 2008. Polishing a Gem for Wilderness Research and Education: a Planning Proposal for Taylor Wilderness Research Station. \$25,000. NSF. 10/1/08 – 05/31/11.
- 2009. Planning a Long-term Agricultural Project for Dryland Agroecosystems of the Inland Pacific Northwest. coPI. \$200,000. USDA/AFRI. 09/01/09 to present.

2009. Collaborative Research: FSML-Enhanced Cooperative Research and Education at Flathead lake Biological Station and Taylor Wilderness Research Station. \$261,952. NSF. 09/15/09 – 08/31/12.
2010. Collaborative Research: WSC-Category 1. Sustainability Dynamics for Water Resources in a Rapidly Urbanizing and Climatically Sensitive Region. \$150,000 (jointly with WSU). NSF. 09/15/10 – 08/31-12.
2011. University of Idaho McCall Field Campus Infrastructure Planning (coPI). \$25,000. NSF. 02/01/11 – 1/31/12.
2012. RCN-SEES: Advancing our understanding of complex mountain landscapes and the vulnerability of natural and human systems to environmental change (PI). \$750,000. NSF. 09/1/2012 – 8/31/2017.
2013. EPSCoR Track I: Managing Idaho's Landscapes for Ecosystem Services (MILES) (coPI). \$20 million. NSF. 2013-2018.

Courses Taught at the Univ. of New Mexico

General Ecology
Biological Adaptations
Biometry
Physiological Plant Ecology
Soil Ecosystems
Ecosystem Ecology (undergraduate)
Ecosystem Concepts (graduate)
Field Ecosystem Studies
Desert Field Biology
Ecosystem Dynamics of US Ecosystems
Special Topics Courses:
 Tree Secondary Chemistry,
 Nutrient Dynamics
 Resource Limitations in Ecosystems
